[Portfolio](#) | [Linkdin](#) | [Github](#)

Results Driven Software Engineer with 2 years of professional experience at Tech Group (DIG Headquarters) and SparkTech Agency, specialising in backend API architecture, full-stack web development, and scalable system design. Proven track record delivering production-grade applications across web and mobile platforms using the MERN/PERN stack, TypeScript, Docker containerisation, and cloud-integrated payment systems (Stripe, PayPal, Google Pay, Apple Pay via RevenueCat). Adept at collaborating in fast-paced engineering teams and translating complex requirements into robust, maintainable software.

PROFESSIONAL EXPERIENCE

Software Engineer

8 month

Tech Group — DIG Headquarters

- Contributed to the full software development lifecycle — design, implementation, testing, and production deployment of enterprise web applications.
- Containerised services using **Docker**, improving environment consistency and deployment reliability across dev/staging/production.
- Optimised system performance through code refactoring, database query tuning, and adopting clean architectural patterns. Collaborated cross-functionally with product and design teams to ship features on schedule in an agile environment. Participated in code reviews and maintained high code-quality standards across the engineering team.

Backend Developer

1 years

SparkTech Agency

- Designed and maintained RESTful and GraphQL APIs consumed by multiple client-facing web and mobile products. Integrated **Stripe**, **PayPal**, **Google Pay**, and **Apple Pay** payment gateways using **RevenueCat** for cross-platform subscription and in-app purchase management.
- Managed relational (PostgreSQL, MySQL) and document (MongoDB) databases; authored schema migrations and optimised slow queries.
- Implemented real-time features using **Socket.IO** and managed server deployments via **Docker** containers. Ensured high availability and efficient server-side performance for production APIs across all client deployments.

KEY PROJECTS

Secure Real-Time Chat Platform

Dec 2025 – May 2026

Designed and developed a highly secure, scalable real-time chat application with a strong focus on privacy, performance, and seamless user experience. Implemented end-to-end encryption (E2EE) to ensure that all messages remain private and accessible only to intended users, enhancing data security and user trust. [Project](#)

Stack: Node.js · Express · MongoDB/Mongoose · TypeScript · Tailwind CSS · RevenueCat · Flutter, AWS, S3 Bucket

World Memory Challenge Gaming Platform

Jan 2024– Mar 2025

Test your geographic knowledge in a fun and engaging way! Match countries with their flags, capitals, and interesting facts while improving your memory and pattern recognition skills. Multiple levels Travel through increasing difficulty stages. Train your brain as you progress features included this is system [Project](#)

Stack: Node.js · Express · TypeScript · PostgreSQL · Prisma · React Js , Tailwind CSS and etc

FAST OFFICE LTD — Office Space Marketplace

Jan 2024– Mar 2025

Platform for booking fully furnished and hot-desk office spaces targeting startups, freelancers, and enterprises. Features include video calling, AI business analysis, a multi-role admin dashboard, and multi-gateway payment support (SSLCommerz, PayPal, Google Pay, Apple Pay) managed via RevenueCat. [Project](#)

Stack: Node.js · Express · TypeScript · MongoDB/Mongoose · React (Vite) · Tailwind CSS ,SSLCommerz ·

TECHNICAL SKILLS

Languages:	JavaScript (ES2022+), TypeScript, SQL, Java, Python, C
Frontend:	React.js, Next.js, React Native, Redux, Tailwind CSS, Ant Design, Bootstrap, HTML5, CSS3
Backend:	Node.js, Express.js, NestJS, GraphQL, REST API, Socket.IO
Databases:	MongoDB / Mongoose, PostgreSQL, MySQL, Firebase
Payments:	Stripe, PayPal, Google Pay, Apple Pay, SSLCommerz, RevenueCat (subscription & IAP management) Docker,
DevOps & Tools:	Git & GitHub, Postman, Vercel, Netlify, Render, VS Code, Figma, Chrome DevTools
Auth & Cloud:	JWT, OAuth 2.0, Firebase Auth, Firebase Cloud
Soft Skills:	Team Leadership, Critical Thinking, Agile Collaboration, Technical Communication

EDUCATION

B.Sc. Computing and Information Systems

Sep 2019 – Dec 2023

Daffodil International University, Dhaka

CGPA: 3.73 / 4.00

LANGUAGES

Bengali (Native) · English (Proficient) · Hindi (Proficient)

ACTIVITIES & INTERESTS

- Employability skills courses; proficient in AI tools (ChatGPT, prompt engineering for developer workflows). Communication and Interpersonal Skills workshop participant.
- Competitive football & cricket player; mathematical problem-solving enthusiast.
- Enjoys mentoring peers in web development and backend architecture.
